

Become your own super hero!

Colour your own mask in the joyful style of artist, Jason Wilsher-Mills and inspired by his Jason and His Argonauts On Tour exhibition.

Cut round the dashed line, including the eye holes, and use a hole punch or a pencil to make two tiny holes either side – ask an adult to help you.

Decorate your mask with bold colours and reveal your inner artist. You can use glue to stick on decorations like cut shapes, sequins and felt too.

Cut two lengths of string 20cm long and thread one through each hole and tie a knot at the end to secure. You're now ready to tie the mask on – ask an adult to help you.

Idea!

You could create your own unique tools and equipment for your character to use! Use recycled cardboard, bottle caps and more!

Will you be an explorer, an adventurer or a super hero?

Does your
mask give
you a super
power?

What is your
mission?

What does
your character
need to help
them?
